

## DESIGN YOUR BUSINESS TO THRIVE

What does a thriving business look like? It's okay if your answer is different or unusual. Thriving is a personal definition, but let's agree on one thing. It includes consistent income, margin for your beautiful life, and the chance to positively impact the world.

To build a business that thrives - no matter your definition - you need to make sure your foundation is strong enough to grow.

With a strong foundation, you gain confidence in your pricing, attract the right people to your work, and create income opportunities that feel aligned, all while having space for a life outside your business.

It's time for you to thrive.

Join me for Foundations Prep School this summer.

# HI, I'M HELEN

I'm a Holistic Business Coach, Co-Conspirator, and Regenerative Business Designer for entrepreneurs who are ready to show up more fully and authentically in their lives and their businesses. Since 2011, I've worked with hundreds of business owners using a proprietary methodology called Love & Badassery, which combines business strategy, values-based service models, and a hefty dose of the magic that makes you unique.

Foundations Prep School is about designing your business so that you show up authentically and powerfully...so that you *and* your business can thrive.

Foundations Prep School is right for you if you identify with the following:

You're a values-based entrepreneur who simply isn't seeing the results of the extra hard work you've been putting in

You're not interested in compromising those values for profits...or those profits for your values

You feel stuck, plateaued, insecure, or bored with your business

You're ready for the next big thing but aren't exactly sure what that looks like

You're ready to make a change in your business for the better
