

How To Make a No-Sew Dog Bed

While you've got your materials handy for these hand printed fleece beds, it will only take you about an hour to put together this well-deserved gift for your hard working canine companion. With two standard bed pillows and one yard of fleece, this no sew, custom cushion will let your dog know how much you care. For cleaning, simply untie the fringe opening, wash or replace inexpensive bed pillows and tie it back up. **What you need....**

- 1 yard of fleece
- 2 standard bed pillows
- scissors
- ruler, chalk
- fabric paint, stencils and sponge brush

↓ Continue reading

Here's how simple this is:

1. Fold fleece in half and cut off curled selvages
2. Measure 4 " in from the cut edges and lightly mark
3. Cut each cut edge into 1" x 4" fringe

4. Stencil your desired design or name on the corner with fabric paint.

5. When paint is dry, turn fabric inside out and tie knots all around, leaving a 14" opening.

6. Turn right side out and fill with two bed pillows.

7. Tie the remaining fringe pieces and tuck them inside the cover.

There you have it. One hour!

For an added treat, throw in a lavender sachet to ward off fleas and keep your pet's new lounger fresh smelling.
