

MY GO-TO PACKING LIST

By Aimara - @waysoftheworld_

Top 5 Styling Tips:

1. **Neutrals are everything!** Black, white & dark green are my go-to. Also, don't forget about stripes!
2. **Pack tops & bottoms that are the same color or the same shade!** Pair a top & pants (or shorts) together and make it look like a jumpsuit OR pair a top & skirt and make it look like a dress!
3. **Don't forget about your layering pieces!** Yes, I'm talking about your button down shirts. Don't forget you can tie a front knot with these or wear them open over a tank top.
4. **Pack a pashmina.** You will use it more than you think!
5. **Accessories are a must!** Some examples are headbands, neck scarves, statement earrings, rings, necklaces & rings.
